Base Ball Game by the renowned Grand Rapids and Stevens Point teams Wednesday Forenoon, August 21.

The Exhibits of Live Stock, Poultry and in fact every line are the most promising.

SPECIAL EXCURSION TRAIN

Leaves Grand Rapids 8:15 Wednesday morning, Aug. 21, on the Northwestern line, return train leaves Marshfield at 9:00

For Sale.
Two homes for sale cheap on account of owner leaving the city. F. G. Gilkey.

For Sale.
I will sell my new home, corner 3rd and Plover Streets, near Catholic church, east side, very cheap. Olin, Kern.

The August Klemme farm in the town of Sigel has been sold during the past week to Oshkosh parties, the deal being made by M. L. Ginsburg.

Scandinavian Moravian Church.
Services will be held in the English language on Sunday morning. The pastor will conduct the services. In the afternoon the regular preaching services will be held in the Saratoga church. We look for a large attendance at both these services.

O. P. Cary, state superintendent of schools, spent this morning in the city looking after some business matters. The Tribune acknowledges a pleasant call.

BIRTHS
A daughter to Mr. and Mrs. Arthur Halferman, west side.
A son to Mr. and Mrs. Fred Bushen, west side.
A son to Mr. and Mrs. Grover Stout of Babcock at the Walker Dickinson home in Rudolph.
A daughter to Mr. and Mrs. G. D. Fritzsche on Wednesday, Aug. 14th.
A daughter to Mr. and Mrs. Clifford Zimmerman on Tuesday, Aug. 13th.
Ben Benson purchased a fine piano last week for his daughter Tena.

TWO HUNDRED ARE PRESENT.

Summer Meeting of Cranberry Growers Proves a Most Successful One.

The summer session of the Wisconsin State Cranberry Growers' Association was held at the Gaynor marsh in the town of Cranmoor on Tuesday pursuant to the call issued by Secretary J. W. Fitch.

Members of the Association and their guests to the number of two hundred were present, and the meeting was a pronounced success both from a social and instructive viewpoint.

Those of the guests who arrived earlier in the day, spent the morning in looking over the experimental station and the marshes in that vicinity. The different bogs are well loaded with fruit and the indications are that there will be a fine crop of berries this year.

Dinner was served at noon by the ladies, and this part of the entertainment was fully up to that of former years, which is saying a good deal in favor of it.

After dinner the meeting of the Wisconsin State Cranberry Growers' Association was called to order and the business of the Association was proceeded with.

Among the speakers present was a Mr. Downing from Madison, who came in place of J. Q. Emery, who had expected to be present but was unable to attend.

Mr. Downing spoke on the subject of correct use of weights and measures. This subject was taken up for the reason that although there has been a standard of size for the cranberry barrel, some of the growers have been skimping the measure a trifle by using a barrel just a little bit smaller than the standard.

The Wisconsin standard cranberry barrel has an inside measurement of 25½ inches with a 16½ inch head and a bidge measurement of 68½ inches, and any grower using a smaller barrel than this is not complying with the law.

"Pat the Ditcher" read a poem of his own composition which told of the troubles of the cranberry grower, and was full of wit and humor that provoked considerable laughter.

A. U. Chaney, general sales agent of the American Cranberry exchange of New York, spoke on the subject of crop prospects throughout the country. The indications are that the crop on Cape Cod will be about 225,000 barrels, while a normal crop there is considered to be about 400,000.

The New Jersey crop will also be less than last year, while Wisconsin, if the berries are all harvested in good shape, will produce about 80 per cent more than last year. This means that Wisconsin growers will have a good crop at a time when the market is not glutted with berries from other sections, and that they will get a good price for their product.

B. H. Porter of New York also gave a short talk in which he made some remarks on the subject of management of bogs.

Charles Schloesser of Chicago, western sales agent for the American Cranberry exchange, gave a valuable talk on the subject of packing which was calculated to better the condition of the fruit when it reaches the market.

J. W. Fitch, secretary of the Wisconsin association gave a report of his visit to Cape Cod, telling of the conditions there as he observed them. He was much impressed with the clean culture methods as pursued on the Cape bogs, and with the big production per acre. He gave it as his opinion, however, that the same results could be secured on Wisconsin marshes provided the same effort were put forth in keeping the ground free of weeds and grasses that crowd out the cranberry vines.

O. G. Malde, manager of the experimental station, made a report of his observations during the past season on the insects that are detrimental to cranberry raising. He also suggested that the Wisconsin association relieve the state of the rental value of the ground occupied by the state, and also have at their disposal about twenty acres more. A committee was appointed to take up Mr. Malde's suggestions and give them proper consideration.

At the conclusion of the meeting of the Wisconsin company the members of the Sales company held a meeting at which Elmer Dano was elected inspector of the Marsh district in place of Harry DeLong, deceased.

O. G. Malde was elected inspector for the Cranmoor district and H. B. Laing inspector for the Berlin district. Two important resolutions were adopted by the Sales company one of which was that no berries gathered on the water should be branded or pooled by the Sales company. The other was that no berries that have been exposed to a frost that destroys more than 5 per cent of them shall be branded or pooled by the Sales company.

O. O. Potter, Thomas Rezin and Charles Bagley were elected members of the Sales company, after which that meeting adjourned.

The meeting was a most pleasant one, most of those present having a good crop in prospect, which has been rather the exception than the rule of late years.

High Water Again.
The water in the Wisconsin River was up to the eight foot mark on Monday afternoon, but on Tuesday morning it had receded several inches. This stage was not high enough to do any damage at this point. Reports from up river were to the effect that it would be higher than it was before this summer, but it fell short by several feet.

Too Much Red Tape.

A trip about the city to the place where houses are not very thick will reveal the fact that many vacant lots about town are overrun with noxious weeds.

We have an ordinance that provides for the cutting of such weeds, and we have a weed commissioner and property owners are notified according to law to cut the weeds, and no doubt in the course of time they are cut, but it is probably after they have gone to seed and done all the harm that it is possible to do.

We would humbly suggest that the weed commissioner be armed with instructions to cut the weeds wherever they are found, and not to neglect the roadways alongside of public and private property, which are often overgrown with many different varieties. By this method the weeds would be cut earlier in the season and more good would probably be accomplished.

SECOND CHOICE IS A PUZZLER

Politicians Fear that Mixup May Occur Thru Ignorance of the New Law.

The following item taken from the Merrill News should be of interest to every voter and candidates for office in particular. It says:

"Realizing that the second choice amendment to the primary election law as passed at the last session of the state legislature may cause a confusion in the minds of the voters as to the election returns in the county as well as in the state, several candidates for office in Lincoln county at the September primary are advising their friends to pay no attention to the second choice column in casting their ballot."

In this way they hope to prevent a possible wholesale discarding of ballots cast in good faith but which would be illegal owing to misunderstanding as a result of the added complexity in voting. It is also feared by some of the politicians more familiar with the machinery at the polls that a number of contests may result in various precincts and that very little betterment of existing conditions at the primary can be seen as a result of the "Mary Ann Act" in comparison with the increased amount of work which is entailed.

At the same time other candidates who have several opponents in the field are canvassing to secure the second choice vote as well as the first as they believe it will make a material difference in the primary result.

According to the terms of the "Mary Ann Law" a majority of the total number of votes cast for a given office is required for a candidate to secure the nomination on his party's ticket, except in the case where there are three men running for the same office the nomination will go to the candidate receiving the largest number of votes after the elimination of course, that one of the candidates has not a majority to start with.

In all cases where there are more than two names of men seeking the same office, providing no one secures a majority of the total vote, the man securing the lowest total number of first choice votes is eliminated and the second choice votes which appear after his name, or the second choice candidates of the men who favored the lowest man for first choice, are added to the first choice vote of the remaining candidates respectively.

If a majority of the total vote cast is then lacking to any candidate, the next lowest man is stricken from the list and the second choice votes for the other candidates behind his name are added to the respective first choice votes of the remaining candidates, and if only two are left, the one having the largest total is declared the nominee for the office.

It is freely predicted that complications will arise from this system of voting, not only with the voter at the polls but with the town clerks at the various precincts. It will probably take twice the time to count the votes as separate tallies must be kept of both the first and second choice votes.

Simple tally sheets contain fifty-two pages, thirteen pages to each of the four parties, room being allowed for the first and second tallies of the candidates for three offices on one double page.

It is possible that a meeting of the town, village and city clerks, and of the ballot clerks at the several precincts in the various cities of the county may be called shortly at the court house for the purpose of studying the second choice provision in order to secure the most effective working at its first trial next September.

Branch Library on West Side.
For the convenience of patrons living on the west side, a branch library is about to be established.

The editors of the Grand Rapids Tribune have kindly given room in their office for this purpose, and the library will be open for circulation every Friday 9 to 12 a. m. and 2:30 to 6 p. m.

About 100-125 books from the main library will be placed in the branch library when necessary.

Rules and regulations governing the main library will apply to branch. Library cards held by west side borrowers will be good at branch library. Books borrowed from the branch library must be returned there and not to the main library.

West side branch opens Friday, August 16th, Tribune office.

INDUSTRIAL SCHOOL NOT A GO

Board of Education Decides Not to Establish Such a Branch Here.

The local Industrial Board of Education at a meeting held August 8, 1912 voted unanimously not to provide for the establishment of an Industrial School in this city this coming year.

The following reasons are advanced for the above action:

1. It is apparent that the attendance of children under sixteen years of age in the regular schools, public and parochial is such as to leave little call for the establishment of other schools for children between the ages of fourteen and sixteen in this city. The schools in this city as now established, are abundantly equipped to take care of all children below sixteen years of age in this city.

2. Employers of labor in Grand Rapids discourage the employment of children under the age of sixteen years, especially during the time schools are in session. Note the following table of Child Labor Permits issued from July 1, 1911 to June 30, 1912:

Antigo.....11	Marinette.....195
Appleton.....183	Marshfield.....106
Ashland.....91	Menasha.....86
Baraboo.....30	Menomonie.....48
Bever Dam, 97	Merrill.....188
Beloit.....59	Millwaukee.....887
Chippewa Falls 55	Neenah.....28
East Claire.....193	Oshkosh.....691
Fond du Lac 464	Portage.....41
Grand Rapids..8	Racine.....1048
Green Bay.....310	Rhineland.....84
Janesville.....169	Superior.....156
Kankakee.....28	Sheboygan.....368
Kenosha.....697	Two Rivers.....70
LaCrossa.....376	Watertown.....62
Madison.....181	Wausau.....102
Manitowoc.....104	Wausau.....147
West Allis.....28	

Grand Rapids ranks last in the number of permits.

3. The demand for skilled labor in any one trade is limited to such a degree in this city that the institution of industrial courses leading to any particular trade does not appear to be warranted for the purpose of such purposes. These this burden of taxation would be increased without incurring "value received."

4. When in the future, the necessity for establishing industrial schools, becomes more apparent in this city than it is at present, provisions for them may then be made. In the meantime it will be well to watch the success of industrial schools established in other cities.

A Rare Bargain Event.
During the past week L. Field of Plymouth has purchased the M. Steinberg stock from the administrators and will close the same out within the next fifteen days. All goods must be sold by that time and the sale commences on Thursday, Aug. 15th and closes Sept. 1st. There are several thousand dollars worth of stock left, including the stock from the Rudolph store and it will all be closed out at 25 and 50 cents on the dollar. This will be a great opportunity to get bargains, so come early while the stock is complete. It is impossible to list the bargains in this article, so watch our bills for prices. Sale will be in charge of Mrs. Max Steinberg. Remember the place, Steinberg's store, opposite the Wood County National Bank building, east side.

Melons Coming Along.
Frank Whitlock, the melon man from the town of Grand Rapids, was in the city on Friday and when asked what the prospects for a melon crop were this year he stated that he had a lot of full grown muskmelons, but that as yet none of them were ripe enough for eating, and that a few days of warm weather would be necessary to put them in shape.

He said that last year he picked his first muskmelons on the 10th of August, and brought his first lot to town on the 18th, but that the indications were that they would be several days later this year. He expects to have from 25,000 to 30,000 melons this year, the number depending on the kind of weather that prevails for ripening the fruit.

Money from the State.
On Friday County Treasurer Wm. Peters received a check for \$788.45 from the state treasurer, it being Wood County's share of the automobile tax. This money is to be used by the county on road work, such work to be done outside of the incorporated cities and villages of the county.

A part of the money that is paid into the state treasury on automobile licenses finds its way back to the county from which it comes in the following manner: The expense of issuing the licenses is deducted from the total, then 20 per cent is taken out for the state, after which the remainder is returned to the county from which it comes.

Here's Chance to Get a Farm.
Washington, D. C., Aug. 10.—About 15,000,000 acres of Indian lands in the former Shoshone, Utah, and Crow reservations in Utah, Wyoming, and Montana are to be sold at public auction at minimum prices, ranging from 50 cents to \$1.50 per acre, in accordance with an order signed today by President Taft and Secretary Fisher. Not more than 640 acres will be sold to any one person. The sales will begin at Lander, Wyo., Sept. 1; at Provo, Utah, Oct. 3, and at Billings, Mont., Oct. 21.

A new Edison picture machine has been installed in the Bijou theater.

Business Better Than Ever.

W. H. Carey, manager of the Carey Concrete Company, reports that business with his company is much better than it ever was before. In fact, he states that the company has already this season sold more of their blocks than they did the past three seasons, which speaks well for the ultimate success of the concrete.

Mr. Carey says that they are making every possible effort to produce a block that is first class in every respect, and wherever they have sold their product it has brought them other jobs. They are not only selling the blocks within hauling distance of the plant, but are shipping many of them by rail to points where there are already concrete block plants, people who want them being willing to pay extra money for them in order to obtain the quality and appearance that they desire.

LOCAL ELKS HAVE VISITORS

About Sixty From Stevens Point Come Over to Witness the Ball Game.

There was something doing around the Elks headquarters last Wednesday afternoon, there being about sixty visiting brothers over from Stevens Point to play ball and have a social time with local members of the order. In order to give the visitors a proper welcome the Grand Rapids boys turned out the Elks band to meet the visitors and escorted them to the club rooms. This band was composed almost exclusively of colored gentlemen, although some of them lost a part of their color during the strenuous trip to the depot and back.

As soon as the visitors had been properly welcomed the entire procession left for the baseball grounds in order to discover which lodge had the best ball team. After playing a few innings it was discovered that the Grand Rapids team was a trifle stronger than that of the visitors as it looked at one time as if the locals would still be at bat when the cows came home, so the Stevens Pointers called for reinforcements in the way of extra pitchers, and three of the locals were eventually raised.

When the smoke of battle had cleared away the score was found to be 12 to 8 in favor of Grand Rapids, with no lives lost, although both sides were somewhat winded. It is needless to say that everybody was satisfied.

In the evening the Elks and their guests assembled at the club-rooms where a supper had been prepared for the occasion and once again those present showed themselves to be masters of the situation, and full justice was done to the fare set forth.

After supper there was a smother and social time, and everybody seemed to be well pleased with the entertainment that had been prepared for them. It was a most pleasant time from start to finish, one long to be remembered by those present.

Will Run a Special.
A special train will be run to Marshfield next Wednesday, August 21, to take the band and visitors who wish to attend the Marshfield fair on Grand Rapids day. The train will leave here at 8:15 in the morning, and returning will leave Marshfield at 9 o'clock. It is expected that the fair this year will be even better than on previous years, and should the weather be still favorable it is probable that a large crowd will go up from here and other points along the line.

New Safety Deposit Boxes.
Two new sections of Safety Deposit Boxes have this week been installed in the vaults of the First National Bank.

This is the third time since their safety deposit vaults were built that the number of boxes has been increased to meet the public demand.

People are fast learning that there is no safe place at home for valuable papers of any sort, and safety deposit vault conveniences are appreciated.

Bids Wanted.
Sealed bids wanted for furnishing material and building a brick, one story, two room school building without basement to be completed in forty days after bid is accepted. All bids must be in by two o'clock P. M. Aug. 31. Committee reserves right to accept or reject any or all bids. Plans, specifications and instructions for bidders on file with director E. N. Nelson, A. J. Annundson, St. Clair, Clerk.

It Was 4 to 1.
Grand Rapids suffered another defeat at the hands of their old rivals, the Stevens Pointers, in a baseball game last Sunday afternoon when the score was 4 to 1 in favor of the ball tossers from up river.

Grand Rapids got one run in the first inning and managed to hold it at 1 to 0 until the seventh when Stevens Point got in two runs, and then added two more to the score in the eighth.

Change in Time.
A slight change has been made in the time of the evening northbound passenger on the St. Paul. The train now leaves here at 6:09 instead of 6:24 as heretofore. The time of the other trains remains the same as heretofore.

JOY RIDING IS COSTLY SPORT

Seven Young Men Pay Dearly for a Trip to the Point on Sunday Night.

Seven of our local youngsters indulged in a joy ride on Sunday night that proved to be an expensive luxury when all the costs had been settled in Justice Brown's court on Monday morning, each contributing the sum of \$25, which with the costs in the case amounted to \$175. In addition to this the young man who drove the car was given a sentence of thirty days in the county jail.

The car in which the ride was taken belonged to Wm. Scott of Port Arthur, Ontario, and was housed in the lively stable of A. J. Hasbrouck. Some time during the night about 11:30 o'clock, one of the young men stated, some of them went to the Hasbrouck livery stable and took the car out and it was August soon afterward, and as soon as it was ascertained that neither Mr. Scott nor his driver had the car, the sheriff was notified of the theft.

Under sheriff Welch immediately got busy on the matter and two cars were obtained and driven to Stevens Point, where with the aid of the police over there the young fellows were soon rounded up and brought back to this city.

When brought before Justice Brown on Monday morning they pleaded guilty to the charge against them and the judge made it \$25 and costs. A thirty day sentence in the county jail was added to Fred Lane's fine, as he was the one who drove the car. The others interested in the matter were Albert Branderli, Jesse Boorman, Forest Mollenhuth, Curtis Boorman, Jess Stevens and Oak Hanning.

Arrested on Serious Charge.
A girl giving her name as Agnes Jarvey was picked up by the police on Sunday morning and placed in the county jail. An investigation brought out the fact that she had been drunk the night before, and had not thoroughly recovered when on the street Sunday morning.

The story also told resulted in the arrest of Louis Witte and Jack Kinstler, whom she stated had been instrumental in furnishing the whiskey on which she became intoxicated. Upon being brought into court on Monday afternoon the girl stated that she was 16 years of age and that her home was at Siles, where her father was a sawyer in a mill. She stated that she was one of a family of fifteen children and had been working in this city since last winter.

That on Saturday night she met the two young men whom she named and that they gave her a drink of whiskey, and then walked together up on the back streets. Then she took another drink, which was the last she remembered until she woke up in the old lumber shed Sunday morning.

When the young men were brought into court Monday they asked for an adjournment, which was granted them, bail being fixed at \$500 each, which was furnished.

School Children.
The time for the Annual Flower and Vegetable Exhibit will soon be here and we are wondering if the children are taking good care of their gardens. This has been an unusually good season for the growing of flowers and vegetables, and we are anticipating a splendid showing.

Remember boys and girls it is your show and your opportunity to win a beautiful prize during this exhibit. Prizes will be given for flowers and vegetables grown from seeds distributed in the schools. Also ribbons awarded for displays from home gardens and house plants. For any further information regarding the exhibit inquire of any member of the School Committee of the Ladies Federation of Clubs.

Mrs. B. G. Eggert, Chairman

Clean Em Up Quick

Last Call on Summer Dresses, Etc.

It is freely predicted that complications will arise from this system of voting, not only with the voter at the polls but with the town clerks at the various precincts. It will probably take twice the time to count the votes as separate tallies must be kept of both the first and second choice vote.

Simple tally sheets contain fifty-two pages, thirteen pages to each of the four parties, room being allowed for the first and second tallies of the candidates for three offices on one double page.

It is possible that a meeting of the town, village and city clerks, and of the ballot clerks at the several precincts in the various cities of the county may be called shortly at the court house for the purpose of studying the second choice provision in order to secure the most effective working at its first trial next September.

Branch Library on West Side. For the convenience of patrons living on the west side, a branch library is about to be established. The editors of the Grand Rapids Tribune have kindly given room in their office for this purpose, and the library will be open for circulation every Friday 9 to 12 a. m. and 2:30 to 6 p. m.

About 100-125 books from the main library will be placed in the branch and exchanged when necessary. Rules and regulations governing the main library will apply to branch. Library cards held by west side borrowers will be good at branch library. Books borrowed from the branch library must be returned there and not to the main library. West side branch opens Friday, August 16th, Tribune office.

INDUSTRIAL SCHOOL NOT A GO

Board of Education Decides Not to Establish Such a Branch Here.

The local Industrial Board of Education at a meeting held August 8, 1912 voted unanimously not to provide for the establishment of an Industrial School in this city the coming year.

The following reasons are advanced for the above action: 1. It is apparent that the attendance of children under sixteen years of age in the regular schools, public and parochial is such as to leave little call for the establishment of other schools for children between the ages of fourteen and sixteen in this city. The schools in this city as now established are abundantly equipped to take care of all children below sixteen years of age in this city.

2. Employers of labor in Grand Rapids discourage the employment of children under the age of sixteen years, especially during the time schools are in session. Note the following table of Child Labor Permits issued from July 1, 1911 to June 30, 1912:

Antigo.....11	Marquette.....105
Appleton.....183	Marshfield.....100
Ashland.....91	Menasha.....36
Baraboo.....30	Mosconaia.....48
Beaver Dam.....97	Merrill.....183
Beloit.....69	Milwaukee.....8467
Chippewa Falls.....55	Neshanic.....28
Eau Claire.....192	Oshkosh.....691
Fond du Lac.....465	Portage.....41
Grand Rapids.....8	Racine.....1048
Green Bay.....310	Rhineland.....34
Janesville.....169	Superior.....150
Kaukauna.....28	Sheboygan.....968
Kenosha.....907	Two Rivers.....73
Ladysmith.....476	Watertown.....60
Ladysmith.....181	Waukegan.....103
Ladysmith.....104	Wausau.....147
West Allis.....28	

Grand Rapids ranks last in the number of permits. 3. The demand for skilled labor in any one trade is limited to such a degree in this city that the institution of industrial courses leading to any particular trade does apparently not warrant the expenditure necessary for such purpose. Thus the burden of taxation would be increased without insuring "value received."

4. When in the future, the necessity for establishing industrial schools, becomes more apparent in this city than it is at present, provision for them may then be made. In the meantime it will be well to watch the success of industrial schools established in other cities.

A Rare Bargain Event.

During the past week L. Fold of Plymouth has purchased the M. Steinberg stock from the administrators and will close the same out within the next fifteen days. All goods must be sold by that time and the sale commences on Thursday, Aug. 15th and closes Sept. 1st. There are several thousand dollars worth of stock left, including the stock from the Kadolph store and it will all be closed out at 25 and 50 cents on the dollar. This will be a great opportunity to get bargains, so come early while the stock is complete. It is impossible to list the bargains in this article, so watch our bills for prices. Sale will be in charge of Mrs. Max Steinberg. Remember the place, Steinberg's store, opposite the Wood County National Bank building, east side.

Melons Coming Along.

Frank Whitlock, the melon man from the town of Grand Rapids, was in the city on Friday and when asked what the prospects for a melon crop were this year he stated that he had a lot of fine grown muskmelons, but that as yet none of them were ripe enough for eating, and that a few days of warm weather would be necessary to put them in shape.

He said that last year he picked his first muskmelons on the 10th of August, and brought his first lot to town on the 15th, but that the indications were that they would be several days later this year. He expects to have from 25,000 to 50,000 melons this year, the number depending on the kind of weather that prevails for ripening the fruit.

Money from the State.

On Friday County Treasurer Wm. Peters received a check for \$788.45 from the state treasurer, it being Wood County's share of the automobile tax. This money is to be used by the county on road work, such work to be done outside of the incorporated cities and villages of the county.

A part of the money that is paid into the state treasury on automobile licenses finds its way back to the county from which it comes in the following manner: The expense of issuing the licenses is deducted from the total, then 25 per cent is taken out for the state, after which the remainder is returned to the county from which it comes.

Here's Chance to Get a Farm.

Washington, D. C., Aug. 10.—About 15,000,000 acres of Indian lands in the former Shoshone, Utah, and Crow reservations in Utah, Wyoming, and Montana are to be sold at public auction at minimum prices, ranging from 50 cents to \$1.50 per acre, in accordance with an order signed today by President Taft and Secretary Fisher. Not more than 640 acres will be sold to any one person. The sales will begin at Lander, Wyo., Sept. 1; at Provo, Utah, Oct. 8, and at Billings, Mont., Oct. 21.

A new Edison picture machine has been installed in the Bijou theater.

Business Better Than Ever.

W. H. Carey, manager of the Carey Concrete Company, reports that business with his company is much better than it ever was before. In fact, he states that the company has already this season sold more of their blocks than they did the past three seasons, which speaks well for the ultimate success of the concern.

Mr. Carey says that they are making every possible effort to produce a block that is first class in every respect, and wherever they have sold their product it has brought them other jobs. They are not only selling the blocks within hauling distance of the plant, but are shipping many of them by rail to points where there are already concrete block plants, people who want them being willing to pay extra money for them in order to obtain the quality and appearance that they desire.

LOCAL ELKS HAVE VISITORS

About Sixty From Stevens Point Come Over to Witness the Ball Game.

There was something doing around the Elks headquarters last Wednesday afternoon, there being about sixty visiting brothers over from Stevens Point to play ball and have a social time with local members of the order. In order to give the visitors a proper welcome the Grand Rapids boys turned out the Elks band to meet the visitors and escorted them to the club rooms. This band was composed almost exclusively of colored gentlemen, although some of them lost a part of their color during the strenuous trip to the depot and back.

As soon as the visitors had been properly welcomed the entire procession left for the baseball grounds in order to discover which lodge had the best ball team. After playing a few innings it was discovered that the Grand Rapids team was a trifle stronger than that of the visitors as it looked at one time as if the locals would still be at bat when the cows came home, so the Stevens Pointers called for reinforcements in the way of extra pitchers, and three of the locals were eventually retired.

When the smoke of battle had cleared away the score was found to be 12 to 0 in favor of Grand Rapids, with no lives lost, although both sides were somewhat winded. It is needless to say that everybody was satisfied.

In the evening the Elks and their guests assembled at the club-rooms where a supper had been prepared for the occasion and once again those present showed themselves to be masters of the situation, and full justice was done to the fare set forth.

After supper there was a smoker and social time, and everybody seemed to be well pleased with the entertainment that had been prepared for them. It was a most pleasant time from start to finish, one long to be remembered by those present.

Will Run a Special.

A special train will be run to Marshfield next Wednesday, August 21, to take the band and visitors who wish to attend the Marshfield fair on Grand Rapids. The train will leave here at 8:15 in the morning, and returning will leave Marshfield at 9 o'clock. It is expected that the fair this year will be even better than on previous years, and should the weather be at all favorable it is probable that a large crowd will go up from here and other points along the line.

New Safety Deposit Boxes.

Two new sections of Safety Deposit Boxes have this week been installed in the vaults of the First National Bank.

This is the third time since their safe deposit vaults were built that the number of boxes has been increased to meet the public demand.

People are fast learning that there is no safe place at home for valuable papers of any sort, and safety deposit vault conveniences are appreciated.

Bids Wanted.

Sealed bids wanted for furnishing material and building a brick, one-story, two-room school building without basement to be completed in forty days after bid is accepted. All bids must be in by two o'clock P. M. Aug. 21. Committee reserves right to accept or reject any or all bids. Plans, specifications and instructions for bidders on file with director F. N. Nelson, Dist. Clerk.

It Was 4 to 1.

Grand Rapids suffered another defeat at the hands of their old rivals, the Stevens Pointers, in a baseball game last Sunday afternoon when the score was 4 to 1 in favor of the ball tossers from up river.

Grand Rapids got one run in the first inning and managed to hold it at 1 to 0 until the seventh when Stevens Point got in two runs, and then added two more to the score in the eighth.

Change in Time.

A slight change has been made in the time of the evening northbound passenger on the St. Paul. The train now leaves here at 6:09 instead of 6:04 as heretofore. The time of the other trains remains the same as heretofore.

Coal

Will be sold for cash only this winter. E. C. Ketchum, F. E. Kellner, F. Bessert & Co., G. Kruger & Son.

The best of motion pictures every Saturday and Sunday at Daily's Theatre.

JOY RIDING IS COSTLY SPORT

Seven Young Men Pay Dearly for a Trip to the Point on Sunday Night.

Seven of our local youngsters indulged in a joy ride on Sunday night that proved to be an expensive luxury when all the costs had been settled in Justice Brown's court on Monday morning, each contributing the sum of \$25, which with the costs in the case amounted to \$35.08. In addition to this the young man who drove the car was given a sentence of thirty days in the county jail.

The car in which the ride was taken belonged to Wm. Scott of Port Arthur, Ontario, and was housed in the livery stable of A. J. Hachbrook. Some time during the night about 11:30 o'clock, one of the young men stated, some of them went to the Hachbrook livery stable and took the car out and it was not until some time after midnight, and as soon as it was ascertained that neither Mr. Scott nor his driver had the car, the sheriff was notified of the theft.

Under sheriff Welch immediately got busy on the matter and two cars were obtained and driven to Stevens Point, where with the aid of the police over there the young fellows were soon rounded up and brought back to this city.

When brought before Justice Brown on Monday morning they pleaded guilty to the charge against them and the judge made it \$25 and 1 cent. A thirty day sentence in the county jail was added to Fred Lane's fine, as he was the one who drove the car. The others interested in the matter were Albert Branderli, Jesse Waterman, Forest Mullenbach, Curtis Boorman, Joss Severance and Oak Hennings.

Arrested on Serious Charge.

A girl giving her name as Agnes Jarvey was picked up by the police on Sunday morning and placed in the county jail. An investigation brought out the fact that she had been drunk the night before, and had not thoroughly recovered when on the street Sunday morning.

The story she told resulted in the arrest of Louis Witte and Jack Kinsler, whom she stated had been instrumental in furnishing the whiskey on which she became intoxicated. Upon being brought into court on Monday afternoon the girl stated that she was 16 years of age and that her home was at Silos, where her father was sawyer in a mill. She stated that she was one of a family of fifteen children and had been working in this city since last winter. That on Saturday night she met the two young men whom she named and that they gave her a drink of whiskey, and then walked together up on the back street. Then she took another drink, which was the last she remembered until she woke up in the old lumber shed Sunday morning.

When the young men were brought into court Monday they asked for adjournment, which was granted them, bail being fixed at \$500 each, which was furnished.

School Children.

The time for the Annual Flower and Vegetable Exhibit will soon be here and we are wondering if the children are taking good care of their gardens. This has been an unusually good season for the growing of flowers and vegetables, and we are anticipating a splendid showing.

Remember boys and girls it is your show and your opportunity to win a beautiful prize during this exhibit. Prizes will be given for flowers and vegetables grown from seeds distributed in the schools. Also ribbons awarded for displays from home gardens and house plants. For any further information regarding the exhibit inquire of any member of the School Committee or the Ladies Federation of Clubs.

Mrs. B. G. Eggert, Chairman

Clean Em Up Quick

Last Call on Summer Dresses, Etc.

Base Ball Game by the renowned Grand Rapids and Stevens Point teams Wednesday Forenoon, August 21.

The Exhibits of Live Stock, Poultry and in fact every line are the most promising.

SPECIAL EXCURSION TRAIN

Leaves Grand Rapids 8:15 Wednesday morning, Aug. 21, on the Northwestern line, return train leaves Marshfield at 9:00

For Sale. Two homes for sale cheap on account of owner leaving the city. F. G. Gilkey.

For Sale. I will sell my new home, corner of 3rd and Plover Streets, near Catholic church, east side, very cheap. Chas. Kern.

The August Klemme farm in the town of Sigel has been sold during the past week to Oshkosh parties, the deal being made by M. L. Ginsburg.

Scandinavian Moravian Church. Services will be held in the English language on Sunday morning. The pastor will conduct the services. In the afternoon the regular preaching services will be held in the Saratoga church. We look for a large attendance at both these services.

O. P. Cary, state superintendent of schools, spent this morning in the city looking after some business matters. The Tribune acknowledges a pleasant call.

BIRTHS. A daughter to Mr. and Mrs. Arthur Hafferman, west side.

A son to Mr. and Mrs. Fred Bush, west side.

A son to Mr. and Mrs. Grover Stout of Babcock at the Walter Dickinson home in Rudolph.

A daughter to Mr. and Mrs. G. D. Fritzelinger on Wednesday, Aug. 14th.

A daughter to Mr. and Mrs. Clifford Zimmerman on Tuesday, Aug. 13th.

Ben Benson purchased a fine piano last week for his daughter Tena.

ROOSEVELT GIVES PLAN OF BATTLE

Address of the Colonel Before the Progressive Convention.

PRINCIPLES OF NEW PARTY

Leader Discusses Courts and the People, Control of Trusts, Cost of Living, Tariff and Other Great Issues.

Chicago, Aug. 6.—Theodore Roosevelt today addressed the convention of the National Progressive party, sounding the keynote for its followers and laying down the plan of battle to be waged by the new party. He discussed the principles of that party under these twelve subdivisions: The Helplessness of the Old Parties; The Right of the People to Rule; The Courts and the People; Constructive Control of the Trusts; Rights of the Wage-Worker; The Farmer; The Tariff; The High Cost of Living; Currency; Conservation; Alaska and International Affairs.

"The two old parties," he said, "are husks, with no real soul within either, divided on artificial lines, bows ridden and privilege controlled, each a jumble of incongruous elements, and neither daring to speak out wisely and fearlessly what should be said on vital issues of the day." As an opponent of the old parties, he asserted that the National Progressive platform will be "a contract with the people," with definite and concrete provisions to be carried out if the people ratify the contract on election day as exactly and honestly "as if it were actually enforceable under the law."

Old Parties Inadequate

Following is a summary of the colonel's speech:

Neither the Republican nor the Democratic platforms or managers show any adequate recognition of the mighty fact "that we are now in the midst of a great economic evolution." This irresistible movement for economic change and improvement must be guided by "both common sense and the highest ethical standards." In order to prevent a retrograde evolution from becoming dangerous revolution, the Democratic party, as indicated by its present record in congress, lacks the common sense, and the Republican party, by its record of stolen delegates at the Chicago convention, lacks the ethical standards.

Right of the People to Rule.

"The actions of the Chicago convention, and to an only lesser degree of the Baltimore convention, have shown in striking fashion how little the people do rule under our present conditions." In order to assure this popular rule Mr. Roosevelt urged the adoption of presidential primaries, popular election of senators, the short ballot, efficient corrupt practices act, qualified electors of the initiative, referendum, and recall. The recall should be applied to administrative officers, not to judges. He asserted that the adoption of these new methods of political administration is not antagonistic to representative government. "All I desire to do by securing more direct control of the governmental agents and representatives of the people is to give the people the chance to make their representatives really represent them, whenever the government becomes misrepresentative instead of representative. I have not come to this way of thinking from close study or as a mere matter of theory. I have been forced to it by a long experience with the actual conditions of our political life."

The Courts and the People.

Under this head Mr. Roosevelt strongly emphasized the necessity of the sovereign people preserving a check on every branch of public service. He reiterated his now well-known views regarding the courts. "The American people, and not the courts, are to determine their own fundamental policies." This does not mean that the people are to interfere in cases which involve merely questions of justice between individuals except that "means should be devised for making it easier than at present to get rid of an incompetent judge." But when a judicial decision involves an interpretation of what the people mean by the laws and laws passed by the people are nullified because the courts say those laws are contrary to the people's will as expressed in their constitution, there must be a "reference to the people of the public effect of such decisions under forms securing full deliberation." The people, he said, may rectify this alleged defect in their constitution by a popular vote having all the force of a constitutional amendment. "Our purpose is not to impugn the courts, but to emancipate them from a position whenever they stand finally in the way of social justice."

PILED DISASTERS TOO THICK

Board of Examiners Could Think of Accidents Quicker Than Sailors Could Master Them.

Some writers of sea tales pile incident on incident and adventure on adventure with a result of a disorganized and improbable story. One of the authors lately, Joseph Conrad, who was a sailor before he turned author, has recently told of the examination that he underwent for his master's certificate—an ordeal that not every writer of maritime "thrillers" could have passed so well. The examiner began by trying to make him talk nonsense.

"I had been warned of that needless trait, and contradicted him with great assurance. After a while he left off. So far, good. Placing me then in a ship of a certain size, at sea, under certain conditions of weather, season, and so forth, he ordered me to execute a certain maneuver. Before I was half through, however, he said: 'I really can't remember what there's left for me to do.'"

Just found its way across the Atlantic. Tree is quite a stickler for detail, and although it is generally customary for the best of the dramatists to represent in the action scene by dummy, Tree, in his recent revival of the Roman drama, insisted that the actor cast for Caesar should actually appear upon the bier.

NOT LIKELY TO SPOIL SCENE

Actor Willing to Guarantee He Would Make Decent Corpse as the Dead Julius Caesar.

Speculation is rife along the New York Rialto as to whether or not William Faversham's production of "Julius Caesar" will actually appear in the oration scene. This is because of a quip put out by Sir Herbert Tree, which has been cast for the part of Caesar, will actually appear in the oration scene. This is because of a quip put out by Sir Herbert Tree, which has been cast for the part of Caesar, will actually appear in the oration scene.

the country school should be brought in touch with country life. For this reason the Progressives approve of government co-operation with the farmer to make the farm more productive. Co-operative production of farmers both for the production of the products of agricultural products should be encouraged. "So long as the farmer leaves co-operative activities with their profit-sharing to the city man of business, so long will the foundations of wealth be undermined and the comforts of enlightenment be impossible in the country communities."

The Tariff.

On the tariff he said: "I believe in a protective tariff, but I believe in a principle approached from a standpoint of the interests of the whole people, and not as a bundle of preferences to be given favorite individuals. It is not merely the tariff that should be revised, but the method of tariff-making and of tariff administration. 'The first step should be the creation of a permanent commission of non-partisan experts' and 'the power to secure exact and reliable information.' This commission must scientifically determine 'the difference in the cost of production here and abroad,' the effect on 'prices to the consumer,' insure full justice to the wage-earner. The commission must not attempt to do more than the tariff-making power of congress. It shall report its full public and promptly. The tariff shall be revised schedule by schedule to avoid the 'staggering blows to business' incident to former general revisions. The effect will be to wipe out the 'log-rolling and vote-trading' secured by special interests in the past."

High Cost of Living.

"The cost of living," said Mr. Roosevelt, "has risen during the last few years out of all proportion to the increase of most salaries and wages. What is first and foremost a social problem, and a searching inquiry into the whole subject, made absolutely by a non-partisan body of experts with no prejudice to warp their mind, no private object to serve, who shall recommend any necessary remedy heedless of what interest may be hurt thereby, and caring only for the interests of the people as a whole."

When Congress shall sanction the commission or clearly evading or violating its orders are prosecuted under the anti-trust law and convicted, the commission should have the duty of seeing "that the decree of the court is put into effect completely."

Justice to Wage-Workers.

Mr. Roosevelt presented an advanced and comprehensive plan to insure the rights and better conditions for labor. He proposed an inquiry, but means public disclosure of action at the Chicago convention "makes their every promise worthless." It is hopeless to turn to the Democratic party for relief, because first the Democratic party "affects to find the entire high cost of living in the tariff," ignoring the patent fact that the problem is in fact, equally pressing in free-trade England and in highly protected Germany. Moreover, if the Democrats are sincere they must take all duties off the products of the farmer, and we "certainly cannot afford to have the farmer struck down." Various elements, economic, political, and social, were pointed out by Mr. Roosevelt as contributing to the high cost of living. But effective remedy can only be found on a comprehensive basis after a thorough, scientific, and prompt inquiry.

The Currency.

Mr. Roosevelt declared that our present bond currency based on government bonds is unsatisfactory and urged the adoption of a system which shall provide "elasticity in the credit and currency necessary for the conduct of business, free from recurring panics." The control of such a system should be in the hands of the government, and must be free from manipulation by Wall Street or the large interests.

Conservation.

Under this head Mr. Roosevelt reaffirmed his well-known policy on the conservation and reclamation of national resources. We must conserve our soil, our forests, our mines, and our water power for the benefit of our children and descendants.

International Affairs.

"In international affairs this country should behave towards other nations exactly as an honorable private citizen behaves towards other private citizens." Our small army should have large efficiency; the navy must be steadily built up until "it proves possible to secure by international agreement a general reduction of armaments." The Panama canal must be fortified. Deep-water commerce should be subject to government sanitary regulation; all industries employing women and children should be specially subject to government inspection and regulation; insurance funds against sickness, accident, invalidism, and old age should be established by a charge either in whole or in part upon the industries; the navy should be granted to women, if for no other reason, to enable workingwomen to combine for their own protection by the use of the ballot.

The Farmer.

"The country life commission should be revived with greatly increased power; its abandonment was a severe blow to our people. The welfare of the farmer, is a basic need of this nation."

Work with. Have I two anchors at the bow, sir?

"Yes, but there's only one cable."

"Then I would thank you if I could, and tell the heaviest bawser on board on the end of the chain before letting go, and if she parted from that, which is quite likely, I would just do nothing."

"Nothing more to do, eh?"

"No, sir. I could do no more."

"You could always say your prayers."

But the exhausted captain of this vessel in mid-ocean distress was not shipwrecked after all. He passed with credit—YOUTH'S COMPANION.

Charcoal in the Ice Box.

A piece of charcoal in the ice box will take away the disagreeable "ice box" smell. If your ice box stands on the porch, where ants are apt to get into it, place a small piece of bacon or ham in the lowest shelf. It will attract all the ants and you can easily remove them every day by removing the piece of bacon.

Schmitz Spends \$1,061.08.

A. J. Schmitz, Milwaukee, has filed an account of expenditures from July 10 to July 29, which shows he spent \$1,061.08. Of that amount \$500 was contributed to the A. J. Schmitz campaign committee and \$460 was paid to the secretary of state for space in the primary pamphlet.

Nominating Committee for Senator.

John S. Denham of Mount Horeb, candidate for the Republican nomination for secretary of state, were filed. The papers contained 3,850 signatures.

Funds in State Treasury.

The books of the Wisconsin state treasury shows a balance of \$1,869,455.02 on the general fund on August 1, as compared with \$2,032,143.19 on July 1, and a balance of \$2,896,604.63 in all funds on August 1, as compared with \$3,191,512.98 on the same date of the preceding month. The largest of the special funds stood as follows on August 1: State highway fund, \$269,220.47; school fund income, \$248,485.9; university fund income, \$206,191.49.

Pike Replaced at Fair.

O. F. Reissner, superintendent of privileges at the state fair grounds, has booked the N. B. Bates show for riding, device, and 26 attractions for the week, in place of the usual shows that have decorated the "Pike" in former years. This company carries two military bands and gives three free outdoor acts each afternoon and night. There are 300 persons with these shows and Mr. Reissner is satisfied that he has secured the best attraction making the rounds of the large state fairs of the country.

Would Get \$32,000 More.

Milwaukee members of the Wisconsin National Guard, if the militia pay bill just reported to the house of representatives becomes a law, will receive an addition of about \$32,000 in their annual aggregate income. The bill provides for paying in time of peace a percentage of the cost of the service, and in actual service as much as members of the regular army.

Bebeoyan—Frederick Schmidt, seven-year-old son of Herman Schmidt, Schwana, was killed by lightning on the farm of his uncle, William, Philip and Minnie Schmidt, were knocked unconscious by the same bolt.

EDITORS OPEN ANNUAL SESSION

Publishers of State Newspapers Talk Shop at Meeting.

MAYOR BADING IS ABSENT

President W. H. Bridgman in His Annual Address Asks for Headquarters with Office Located in Milwaukee.

Madison.—Newspaper publishers from all over the state are in Milwaukee for the purpose of enjoying and talking shop to such an extent as will not interfere with their acceptance of the hospitality of the city which are showered on them by Milwaukeeans who are glad to have them there.

One innovation, which was proposed by President W. H. Bridgman in his annual address, attracted much attention. It was the establishment of a permanent headquarters of the association in Milwaukee with a paid secretary or manager who should look after the varied interests of the members along different lines. But two papers, aside from the president's address, were read, the association adjourning to accept invitations which had been tendered. Assemblyman Meritt Hill of Black River Falls spoke on "Hostile Lawmakers" and R. T. Wheelock spoke on "Mail."

Mayor Bading was not able to be present at the opening session and President Bridgman called upon former Gov. George W. Peck, who was present, to extend a welcome to Milwaukee, which Governor Peck did in a short address.

President Bridgman, in his annual address, said that such an organization as the editors of the state and for that reason would have a campaign for the increase of the membership of the association.

"This organization had a great and powerful membership in days when the printing and publishing business of the state was comparatively small," said Mr. Bridgman. "Today, when every trade and profession is governed by a perfect organization, the printing business lags behind until the stern hand of necessity knocks on the door of our sanctum and demands that we do something."

"I appeal to you today to take action. We must admit that such an organization is desirable, necessary, and of great achievement, which will allow this association to be supplemented by another organization? Why not justify its existence?"

"What an organization of this character must needs under existing industrial conditions is a permanent headquarters in charge of a salaried manager, who shall be constantly in touch with the interests of the association. There are so many ways in which he could make himself and his office profitable to the membership which this association ought to have he could easily make his office pay his salary and leave a surplus in the treasury each year."

"This headquarters should be located in the commercial metropolis of the state, and should serve as a clearing house for the printers and publishers. It should be the recognized agency for all foreign advertising, its manager should represent us at the seat of state government, and backed by the prestige of this association, should be heard by the lawmakers on all matters affecting our welfare. It should be the headquarters of a mutual insurance organization, which would be the means of saving us large amounts, and should serve as a general commercial agency, protecting the trade from fakes and impostors of all sorts."

Suggests State Fair Park.

Proposes of the question of caring for homeless dogs, which is in the public mind at the present time, R. H. Helmsstreet, a director in the Wisconsin State Humane society, suggests that the use of the state fair grounds be given for the purpose. Mr. Helmsstreet says:

"I notice the question of caring for dogs being debated in Milwaukee. The state of Wisconsin has within two miles of the city over 100 acres of land and buildings used, say, two weeks during the year."

"The state humane society is seriously considering taking up animal work exclusively. Why could not the state give the use of this property, or part of it, to the humane society? Could we not find enough interested who would contribute to a home for animals just outside the grounds, for office, etc., and in this way settle this question. See what the state of New York is doing in this line. Why cannot Wisconsin do the same?"

Fish Board Starts on Tour.

The Wisconsin fish commission, with Superintendent James Nevin, left in the new fish car, Badger II, on a tour of inspection of the hatcheries of the state. The business meeting was held in the office of the state fish commissioner, and Superintendent Nevin made his annual report of the number of fish distributed during the year, as follows: Madison hatchery, 4,182,000; Bayfield hatchery, 18,804; Oshkosh, 37,150,750; Minocqua, 88,847,000; Delaford, 61,400,000; Wild Rose, 51,400,000. Total, 202,254,617.

Racine.—Felix Hinas, a laborer, lay down to sleep while his dinner was cooking. The gasoline stove exploded and he was badly burned. He saved himself from cremation by jumping from a second-story window, though he was stunned in the fall and broke an ankle.

Racine.—Felix Hinas, a laborer, was badly burned in an explosion of a gasoline stove. He saved himself from cremation by jumping from a second-story window, though he was stunned in the fall and broke an ankle.

Fond du Lac.—Dr. Edmund C. Alford died fifty-four years, a practicing physician here for 30 years, died suddenly of acute catarrh, complicated with kidney trouble. He was born in Vermont and is survived by his wife, a daughter and twin sons.

Bebeoyan—Frederick Schmidt, seven-year-old son of Herman Schmidt, Schwana, was killed by lightning on the farm of his uncle, William, Philip and Minnie Schmidt, were knocked unconscious by the same bolt.

Aviator Beachy Seriously Hurt.

Battle Creek, Mich., Aug. 6.—Elliott Beachy, noted aviator, lies in a critical condition at Nichols hospital in this city as the result of injuries received in a fall from his machine Sunday.

Australian Airman Killed.

Dryden, England, Aug. 6.—An Australian aviator, Charles Lindsay Campbell, was killed here Sunday by a fall with his aeroplane while trying to fly from Brooklands to the Byfleet aerodrome.

Wife of a Soldier.

Chicago, Aug. 6.—When an exciting chase in the loop resulted in the capture of Jacob F. Guthrie of 1613 Prairie avenue Saturday, treasure worth \$100,000 was recovered and a career that has surpassed that pictured for any of the "society hand" of action checked.

Chicago, Aug. 6.—When an exciting chase in the loop resulted in the capture of Jacob F. Guthrie of 1613 Prairie avenue Saturday, treasure worth \$100,000 was recovered and a career that has surpassed that pictured for any of the "society hand" of action checked.

SEEN AND HEARD IN WISCONSIN

Oconomowoc.—Edward Wagner was arrested on the charge of grand larceny, the charge of arson against him not being served. The young man was bound over under \$1,000 bonds to await trial on August 13. Physicians who examined the defendant found him sane, but a deponent was taken to Waukesha county jail to await trial. Since his commitment to jail he has twice endeavored to end his life by strangulation. It is charged that he took a number of articles from his father's home. He was first held on the charge of arson.

Racine.—Men of several cities in Wisconsin and Illinois, witnessed the buying of the corner stone of the Elks' building, which is to cost \$60,000. The building is to be erected on a tract of land on the lake shore near the business center of the city. Three hundred members of the local lodge of Elks with delegations from Milwaukee, Kenosha and Chicago, headed by a band, marched from the city hall to the new building where the ceremonies were held. The surroundings were brilliantly illuminated. The principal address was made by Everett Jennings, Chicago, formerly of the Louisville lodge of Elks.

Beloit.—Intent upon taking her life, a young woman was intercepted by two men as she was climbing over the rail of the central bridge. Her name is said to be Hogan.

Madison.—Katherine T. Whitney, fifteen, a high school girl, and assistant supervisor of the city playgrounds, swam across Lake Mendota, a distance of three and one-half miles, in three hours and forty minutes. Three men, all expert swimmers, who started out to swim across the lake with Miss Whitney, were forced to give up before half of the distance was traveled. What makes Miss Whitney's performance the more remarkable was the fact that before the two-mile point was reached, whitecaps were encountered, making the headway doubly hard, but she kept on, completing the journey without taking a rest. When Governor's Island was reached, Miss Whitney was tired out but a short rest revived her.

Madison.—As a result of the overturning of an automobile containing a party of five, one girl, Alice Mueller, daughter of an engineer of the St. Paul railroad, is dead, while two of her companions, Frederick Waltinger and Edward Alford, are so seriously injured that they are not expected to live. The other two occupants, whose names could not be learned, escaped with minor injuries. The wreck occurred when the young people were returning from a party. The machine, in turning a corner, skidded and struck a telephone pole, completely overturning and burying the occupants beneath the debris. The dead girl was a student of the local high school. Edward Alford, one of the men seriously injured, is a son of J. Alford, president of the state fish commission.

Oshkosh.—In a clean-up on gambling, a squad of policemen raided two places, one, a room over a store on Main street, and the other a saloon on High street. John M. Sheer and Nicholas M. Sheer were arrested charged with running gambling places and the former pleaded guilty on Monday and paid a fine of \$25. Sheer pleaded not guilty and his case was set for a later date.

Milwaukee.—Schuen's hotel at Donges Bay was damaged by fire. Guests and employees formed a bucket brigade and saved the structure from total loss. The fire was caused by sparks from a chimney. The dining room and buffet were destroyed, with champagne and other liquors. The loss is estimated at \$8,000.

Racine.—Racine will appeal to the state railroad commission in an effort to compel the Milwaukee Electric Railway and Light company to reduce car fares, furnish better cars and give more adequate service. The company will withdraw its application for franchises to extend lines to the outlying districts as a result of the city's action. The company declares the property here is not producing sufficient revenue to support the investment in new cars.

Waukesha.—Frank Fuller, Mukwonago, won the state event at the annual state shoot at Green Bay, which entitles him to the Wisconsin state championship title.

Racine.—Danish-Americans of Racine and Chicago held a joint celebration at Horlick park to commemorate the presentation by Danish-Americans to Denmark of a 400-acre park.

Spooner.—Angered by the alleged tormenting of Tony Maggison, A. C. Stone, a Civil war veteran, stabbed Maggison through the right lung in a saloon. Stone was charged with the crime and is now in jail. Maggison is charged with inflicting upon him. Stone is seventy-nine years old. Maggison's wound may prove fatal.

Grand Rapids.—Rev. M. B. Milne, pastor of the Baptist church for four years, has accepted a call from Waukegan.

Racine.—Felix Hinas, a laborer, lay down to sleep while his dinner was cooking. The gasoline stove exploded and he was badly burned. He saved himself from cremation by jumping from a second-story window, though he was stunned in the fall and broke an ankle.

Fond du Lac.—Dr. Edmund C. Alford died fifty-four years, a practicing physician here for 30 years, died suddenly of acute catarrh, complicated with kidney trouble. He was born in Vermont and is survived by his wife, a daughter and twin sons.

Bebeoyan—Frederick Schmidt, seven-year-old son of Herman Schmidt, Schwana, was killed by lightning on the farm of his uncle, William, Philip and Minnie Schmidt, were knocked unconscious by the same bolt.

Miss Irma Stafford of Grand Rapids called on friends here last Wednesday.

Vernon LaBelle of Grand Rapids spent Saturday and Sunday with his grandparents, Mr. and Mrs. Frank Gallagher.

Mrs. Leo Margery is entertaining her sister from Indiana.

Killed by Soo Line Train.

Stevens Point Journal.—Charles Budeke, a single man whose home is at Amundson, was struck and instantly killed by Soo line passenger train No. 4 at that place at about 1:20 this morning.

He had been riding a bicycle fitted with an attachment for riding on the rails but it is presumed that he got off and went to sleep while sitting on the track.

Early this morning the little wheel with the braces attached that formed part of the equipment that Budeke used, was found on the main line near Wood's mill in this city.

Bernard Kane, who is employed as night call boy, was employed at that place at that time. It had evidently dropped off the pilot of No. 4's engine.

Later—The coroner's jury, investigating into the death of Charles Budeke of Amundson, who was instantly killed by Soo line passenger train No. 4 at that place early Monday morning, on Monday afternoon brought in a verdict exonerating the railroad company or any of its employees from all blame, claiming that the man's death was brought about through his own negligence.

Engineer McWorter, who was at the lever of No. 4's engine when the fatal accident occurred, testified at the inquest that Budeke was sitting on the rail, apparently asleep, when the train bore down upon him, and was seen too late to prevent the tragedy.

—If you are looking for the biggest bargains you ever received in Grand Rapids be sure and call at the closing out sale of the remainder of the Steinberg stock by L. Field of Plymouth. Bargains that will surprise you. Everything must go within fifteen days.

Miss Irma Staffeld of Grand Rapids called on friends here last Wednesday.

Vernon LaBelle of Grand Rapids spent Saturday and Sunday with his grandparents, Mr. and Mrs. Frank Gallagher.

Mrs. Leo Margery is entertaining her sister from Indiana.

Killed by Soo Line Train.

Stevens Point Journal: Charles Budeke, a single man whose home is at Anburndale, was struck and instantly killed by Soo line passenger train No. 4 at that place at about 1:30 this morning.

He had been riding a bicycle fitted with an attachment for riding on the rails but it is presumed that he got off and went to sleep while sitting on the track.

Early this morning the little wheel with the braces attached that formed part of the equipment that Budeke used, was found on the main line near Wood's mill in this city by Bernard Kane, who is employed as night call boy.

It had evidently dropped off the pilot of No. 4's engine.

Later--The coroner's jury, investigating into the death of Charles Budeke of Anburndale, who was instantly killed by Soo line passenger train No. 4 at that place early Monday morning, on Monday afternoon brought in a verdict exonerating the railroad company or any of its employees from all blame, claiming that the man's death was brought about through his own negligence.

Engineer McWhorter, who was at the lever of No. 4's engine when the fatal accident occurred, testified at the inquest that Budeke was sitting on the rail, apparently asleep, when the train bore down upon him, and was seen too late to prevent the tragedy.

—If you are looking for the biggest bargains you ever received in Grand Rapids be sure and call at the closing out sale of the remainder of the Steinberg stock by L. Feld of Plymouth. Bargains that will surprise you. Everything must go within fifteen days.
